

Aladtec

24/7 public safety employee scheduling matched to your unique rotation patterns with built-in rules to meet minimum staffing requirements.

Key benefits:

01

Modernize scheduling and ensure proper coverage with real-time schedules based on seniority, availability, and skill

03

Improve member retention with anytime mobile access to schedules and member availability tracking

02

Automate communications and use simultaneous or rotational paging to quickly fill open shifts with available and qualified members

04

Mitigate compliance risk and ensure transparency with fatigue rules, certification tracking, and automated shift bidding

By switching to Aladtec, I save at least one to two hours a day. Add that up, and it frees as many as 10 hours a week for me to concentrate on more important tasks. I really do like Aladtec. I don't say that about a lot of products, but this system has really made my job much more efficient. I would absolutely recommend Aladtec to other organizations; it's a very good fit for our industry.

— Nate Lebeck, Operations Manager & Critical Care Flight Paramedic at Life Link III, Minneapolis, Minnesota

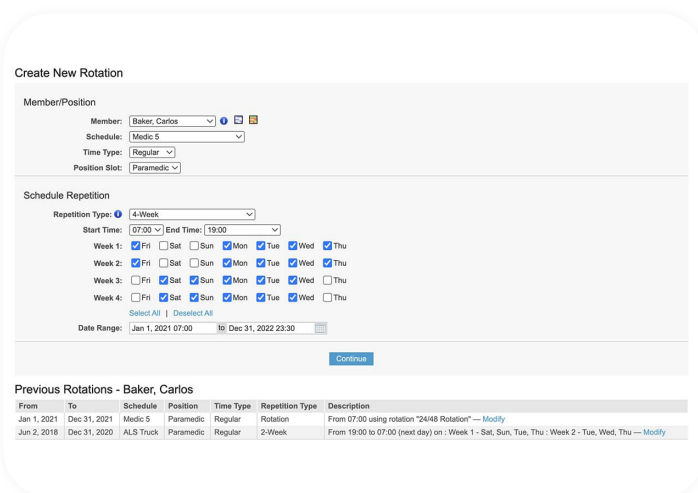

Supervisors can easily schedule employees using rotational patterns, from simple to complex rotations for up to two years or use simple drag-and-drop tools for one-time changes.

Real-time rotational scheduling and communications

Automate 24/7 shift scheduling and agency workflows to remove the hassle of outdated paper schedules and frustrating phone trees.

- Use any of our pre-configured rotations—including 24/48, 48/96, Panama Rotation, California Rotation—or create your own.
- Streamline communications around shift updates, filling open shifts, and managing member requests to boost agency efficiencies.
- Automate the shift bidding process to reduce human errors and save time in creating fair and compliant long-term schedules.

From	To	Schedule	Position	Time Type	Repetition Type	Description
Jan 1, 2021	Dec 31, 2021	Medic 5	Paramedic	Regular	Rotation	From 07:00 using rotation "24/48 Rotation" — Modify
Jun 2, 2018	Dec 31, 2020	ALS Truck	Paramedic	Regular	2-Week	From 19:00 to 07:00 (next day) on : Week 1 - Sat, Sun, Tue, Thu : Week 2 - Tue, Wed, Thu — Modify

Stay compliant with minimum staffing rules and union requirements

Take the heavy lifting out of scheduling the right members on every shift.

- Automate the enforcement of minimum staffing requirements, providing instant alerts for compliance issues.
- Ensure member safety by adhering to fatigue rules and work limits according to union rules and agency policies.
- Track certifications and get automated alerts for upcoming expirations, with options to warn or block scheduling of uncertified members.
