## Automated time tracking and substitute management

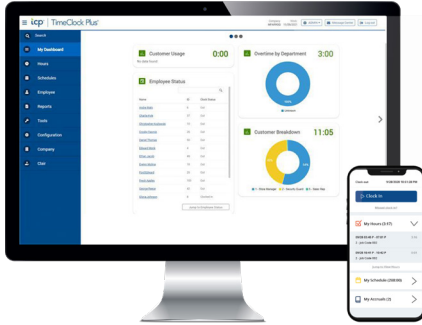

TCP helps schools and districts increase efficiency and accuracy, reduce compliance risk, and improve staff and substitute experiences.

### Benefits

- **Create automated, accurate, auditable processes** by integrating with your payroll system and eliminating paper-based extra-duty timesheets and absence requests.
- **Improve teacher experiences** with always-correct extra-duty pay and real-time sub requests to secure dependable classroom coverage.
- **Cover classrooms quickly and easily** with automated substitute management using text and mobile app communications.
- **Get a handle on classified employee complexity** with easy time collection devices and automated calculations for annualized staff, positions with different pay codes, weighted/blended overtime, and comp time.
- **Mitigate FLSA compliance risk** with our compliance rules engines.
- **Improve district decision-making** by monitoring trends around overtime, absences, grant tracking, and more.

## Automated solutions for your school district

### Time and attendance

Accurate calculations across nuanced payroll rules, highly flexible time collection, and robust leave management

### Substitute management

An incredibly easy-to-use platform for automated absence management, notifications, and sub hours tracking

## What our customers are saying

We were looking to save time. Our payroll coordinator was probably spending 80 hours a week on paper timesheets. I can't say enough good things about TimeClock Plus and how much it has saved us.

Cindy Fox | Executive Director of Transportation Toledo Public Schools

### Escape the time integrity trap

When you're in the trap, people aren't scheduled or paid correctly, inaccuracies drain budgets, inefficiencies kill productivity, and workers burn out. There's a better way. **Reach out to learn more.**
