# Ellucian Banner Integration
Designed for the Complex Needs of Universities

Data synchronization between TCP and Ellucian Banner is now quicker and more efficient than ever. With a seamless integration, we now deliver a highly functional, real-time exchange of data between the two applications.

As a trusted Ellucian Partner, TCP provides a scalable, secure and proven data exchange between your Ellucian Banner system and TCP. Our purpose-built Banner integration uses your existing data elements to deliver the best of both solutions.

Integrated Data Elements:

- Position
- Position Start and Stop Dates
- Suffix
- Earn Codes
- Earn Code Balance(s)
- Pict Codes
- Org
- Employee Info
- Approved Hours Back to PHRMTIM

Employee Demographic & Job Information

Evaluated Time Information

ellucian Ethos Connected

See why universities across the country chooses to supplement their Banner solution by integrating with TCP.
